About PCCP DIVISION

Resonance launched Pre-foundation Career Care Programs (PCCPs) Division in 2006 with the philosophy of an early start. As the name suggests, the division aims at giving the edge to the students for Career Examinations like JEE (Main + Advanced), NEET/ AIIMS, CA/CS/CLAT etc. before entering into senior secondary classes.

In last 14 years, PCCP division has evolved significantly and works in two segments of classes, namely, Sub-Junior classes (5th – 8th) and Junior classes (9th – 10th). The two segments have different teaching methodologies and so are their targets.

In junior classes, the targeted competitive examinations are National Standard Examination in Junior Science (NSEJS, 1st stage of International Junior Science Olympiad (IJSO)), National Talent Search Examination (NTSE), Pre Regional Mathematics Olympiad (PreRMO, 1st stage of International Mathematics Olympiad). In addition to these competitive examinations, we also prepare students for class 10th board examination, according to the latest changes made in it, by exposing them to mock situations like that of the real one.

In Sub-Junior classes, the targeted competitive examinations are National Mathematics Talent Competitions (NMTTC), Private Mathematics and Science Olympiads and other private Olympiads which can be cleared by following CBSE curriculum of the particular class. Other than the competitive examinations, we build conceptual understanding in all the subjects by following NCERT curriculum and conducting various academic workshops to make students understand the application of several concepts.

Other than the academic delivery of concepts, we also aim at inculcating life skills in students as per the current guidelines of World Health Organization (WHO). The life skills include social skills, thinking skills and emotional skills. These skills are enhanced through a variety of activities conducted at Resonance.

THE KEY TO SUCCESS

IS TO START EARLY

Through Resonance National
Entrance Test (ResoNET)

Pre-defined Yearly Planner

The yearly planner consists of arrayed chapters for each of the subjects, test grid of the whole session with syllabus mentioned in it, holiday schedule, homework checking schedule etc.

Scientifically Designed Chapter Modules

Classroom teaching is supplemented with futuristic study material in the form of chapter modules, which provide sequential theory of a particular chapter with exercises to check the progress of students, pictorial and textual summaries.

Support and Communication Mechanism

Daily Practice Problems (DPPs)

In addition to chapter modules, DPPs are given to students. Each DPP includes questions from all the chapters taught before it, even if they've already been covered in earlier DPPs.

Regular Classroom Discussion of Homework Questions

After classroom teaching, homework is given to students, which is discussed in the next class of that particular subject. Students who do regular homework and participate in classroom discussion are likely to succeed in the competitive examinations.

Clinic Classes and Doubt Classes

Clinic and Doubt classes are for those students who miss out on classes due to unavoidable circumstances or late joining. These classes run throughout the year so that students can catch up anytime they feel left out.

Student Analysis and Performance Evaluation Report (SAPER)

Students can check his/her performance and rank generated for each subject at the website of Resonance. The SAPER can be found at www.pccp.resonance.ac.in, under student zone.

School Examination Preparatory (SEP) Sheets

These are worksheets which are to be solved and submitted for checking, after each chapter.

Parent Teacher & Student Meeting (PTSM)

There is a provision of PTSM which ensures periodic communication among the parents, teachers and students. Through this meeting, parents get feedback about the strengths and weaknesses of their ward and teachers get feedback about their teaching. This mutual feedback system helps in improving the quality of academic delivery.

All India Testing

The concepts learnt and practiced by the students are tested through regular tests mentioned in the yearly planner and conducted among the students of Resonance across all the study centers. This helps students to check their performance at the national level.

Online Testing Platform

Resonance's Online Practice Test Platform has been developed exclusively to facilitate the Students to practice various papers online anytime and test their proficiency level and subject knowledge.

Motivational Sessions

There is provision of motivational classes within the curriculum which is required to keep the students on track and motivate them to aspire for success. As students of this age require continuous guidance, these motivation sessions help them to set their targets and fix the execution guidelines to achieve them.
